MarketingNetz Content Services

We help IT companies grow more sales with less effort. Too often you're so focused on working in your business, you don't have time to work on it. Stop berating yourself saying *"I need to find more time posting on the website"* Outsource it!

Now you can keep prospective clients warm and existing clients open for additional services. Automate your marketing with MarketingNetz!

Content Proves Your Expertise

Our IT domain experts author the content relevant for your clients: security, privacy, tech trends, best office practices, defending breeches, automation and reliability. These topics are top of mind with your clients. Prove you've got it covered.

Automating the Entire Process

- Posting to your website blog
- Cross posting to Social media
- Automatically email your customers and prospective clients
- Raise your SEO above competitors

Stop worrying, outsource it and grow your business today.

Tiers of Service

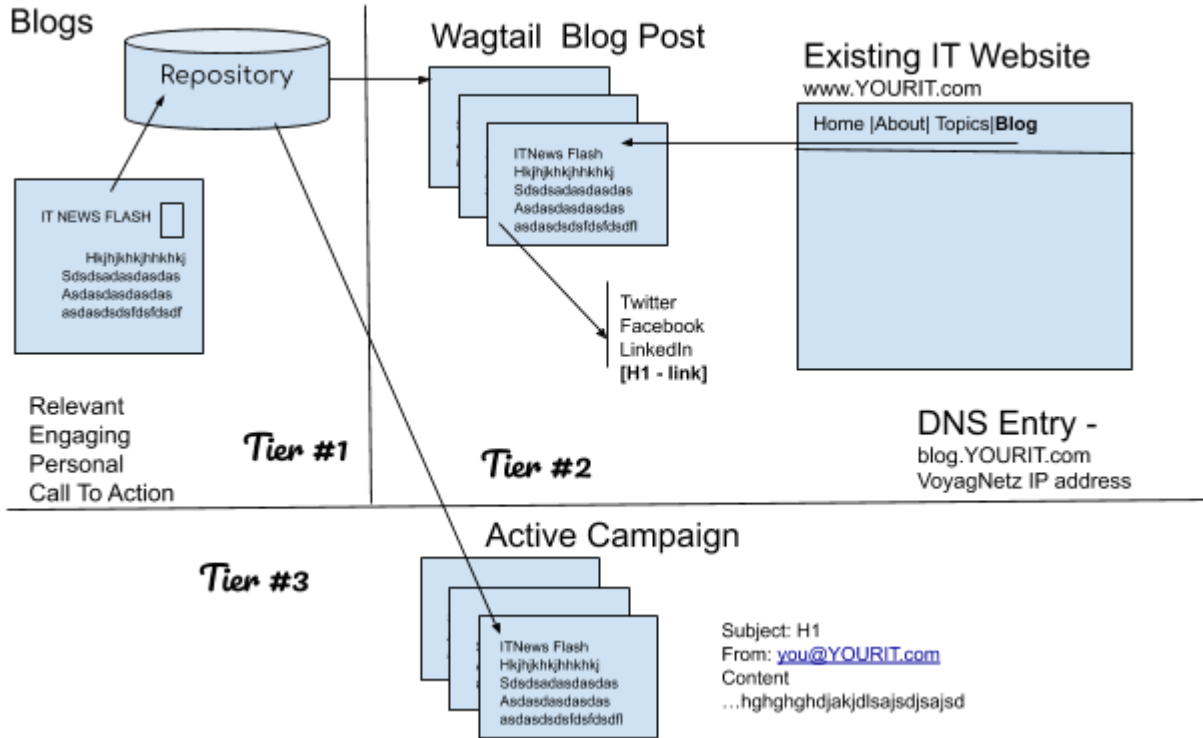

Monthly investment in three economical tiers:

1. Content Only
2. Content - Blog - Social
3. Content - Blog - Social - Email

How It Works

Core Technologies Automate

You can keep your current website. We use the Wagtail CMS to post your blogs saving you time. We use the Active Campaign CMS to email your list with timely content posted on your blog. You control the content on your website.

Content is King

Great content creates conversations and opportunities for new business. It must be:

- Relevant
- Engaging
- Personal
- Have a clear call to action

Our goal is to persuade your clients to reach out and buy more.

Why This Helps Your Business

Our goal is to solely focus on growing your business:

- Save you time
- Raise the quality of your reputation
- Leverage Social Media and Email to upsell new services
- Heighten your SEO and attract new clients
- Let you focus on what you do best
- No need to change your website
- No effort on your part

Set and Forget

Focus on what you do best. Let technology do the rest. Automate your sales with less effort. Let's chat about what's possible today.
